FACULTY OF Administrative Sciences

Graduation projects guide

November 2025

Prepared By:	Dr. Nancy George	Head of Business Administration & Marketing Department
Reviewed By:	Dr. Elkider Ahmed	Member of Business Administration & Marketing Department
Approved by:	Dr. Maysoon Zakaria	Dean – Faculty of Administrative Sciences

TO THE SUPERVISOR AND CO-SUPERVISOR (if any)

The purpose of this guide is to provide support to supervisors and co supervisors to work with students under the predefined guidelines for thesis writing and formatting to produce a work that meets the requirements of the Faculty of Administrative Sciences National University Sudan. The responsibility of supervisors and co supervisors lies in assisting the students and build their capacity as researchers to understand and meet the basic requirements, through supporting, training, advising and monitoring. There are certain parameters students must follow while working on the thesis or dissertation to ensure the quality of their work. Supervisors should continuously monitor the progress of their students' works.

1. GENERAL REQUIREMENTS

This section investigates the main five chapters of the Research. Each chapter should describe its own content and should be started in a separate page. All chapters must be divided into further sections and sub-sections as per the requirement of the research study. The sections and sub-sections should comprise the text with paragraphs in its logical reasoning. The student must ensure that each section and sub-section has a strong connection and logic or provide base to the concepts.

1.1 Introductory pages

Subject	Status	Example
Title page	Compulsory	Appendix A
Examiners' approval letter	Compulsory	Appendix B
Declaration of project by the student and the supervisor	Compulsory	Appendix C
Dedication	Optional	Appendix D
Acknowledgements	Compulsory	Appendix E
Abstract (English/ Arabic/ Other language)	Compulsory	Appendix F
Table of Contents	Compulsory	Appendix G
List of Tables	Compulsory	Appendix H
List of Figures	Compulsory	Appendix I
List of Appendices	Compulsory	Appendix J

1.2 Text Body

Subject	Status	Contents
Chapter 1 Introduction	Compulsory	Background, problem statement, research questions, research objectives, hypothesis (if any), scope of study, significance of study, motivation for research and related information
Chapter 2 Literature Review	Compulsory	Theories, describing variables, theoretical framework, research gaps, and previous studies
Chapter 3 Research Methodology	Compulsory	Research design, methods, tools, techniques to gather insights, data collection and analysis steps, procedures and material and methods
Chapter 4 Results and Interpretati on	Compulsory	Qualitative and quantitative information based on the analysis, Descriptive analysis, validation of tools, statistical and graphical presentation of results, hypothesis testing (if any), and results interpretation
Chapter 5 Discussion, Conclusion and Recommendations	Compulsory	Discussion, Conclusion and recommendations for further studies
References	Compulsory	APA Style
Appendix	Compulsory	Ethical Approval, Data collection methods

1.3 Typing and Printing

A project should be typed using MS word latest version, and printed out using a high-quality printing machine. All the typing should be done with “Times New Roman” font point 12 for English writing and “Simplified Arabic” point14 for Arabic writing. The printed version of thesis or dissertation should be on single side.

1.4 Type and Size of Paper

A simple white 80 grams high quality A4 size papers (210 × 297 mm) should be used for printing the thesis or dissertation.

1.5 Margins

The page margin and size should be standardized as shown in appendix A. The left margin should be 3.5 cm (for binding purposes) and 2.5 cm from the top, right and bottom edges of the paper.

1.6 Line Spacing and Formatting

The following guidelines should be observed in line spacing and formatting:

- The spacing between the top margin and the chapter number should be (1.5) line spacing
- The spacing between the chapter number and the title, and between the title and the first line of a text should be (4) line spacing;
- The spacing between the title of sub-section and the first line of a text should be (1.5) line spacing
- The spacing between paragraphs should be (1.5) line spacing
- The number and the title of sub-section should be aligned with the left margin
- The first line of a paragraph should be indented by 1.27 cm (0.5 inch) from the left margin
- A new paragraph should not begin on the last line of a page
- The spacing between the last line of a text and a table, or a figure or an illustration should be double (1.5) line spacing;
- The spacing after a full stop should be two (2) character spacing.
- The spacing after a comma (,) should be one (1) character spacing.

1.7 Pagination

The pages of the project should be counted and numbered. The page numbers should be printed at the center of the bottom page. Numbering should be as follows:

- i. The Introductory pages, starting from the title page should be numbered using small letter Roman numerals (i, ii, iii, etc.);
- ii. The first page should be counted as “i” but not printed.
- iii. The text including all chapters should be numbered using Arabic numbers. The first page of the text should be counted as “1” and followed to the rest of the chapters pages.
- iv. The numbering will not appear on the Appendixes and list of publications.

1.8 Chapters Numbering

Numbering of all chapters should be written in Bold Times New Roman font size 12, centralized and start in a new page. The title of each chapter should be centered and not underlined and written in bold block letters.

1.9 Numbering and font size for headings and sub-headings

The numbering for the heading and sub-heading should be aligned with the chapter number in Bold, font 12 with each word capitalized.

No	Chapter	Example
1	Chapter 1: Introduction	1.1 General Overview 1.1.1 Global Perspective 1.1.2 National Perspective 1.2 Research Background 1.3 Problem Statement 1.4 Research aim and Objectives
2	Chapter 2: Literature Review	2.1 Country Context 2.1.1 Regional Facts and Figures 2.2 Variable 1 2.3 Variable 2 2.4 Schematic Diagram
3	Chapter 3: Research Methodology	3.1 Research Design 3.2 Methods 3.2.1 Quantitative 3.3 Data Collection
4	Chapter 4: Results and Interpretation	4.1 Descriptive Statistics 4.2 Correlation 4.3 Regression 4.3.1 Hypothesis test 1 4.3.1 Hypothesis test 2
5	Chapter 5: Discussion, Conclusion and Recommendations	5.1 Discussion and Conclusion 5.2 Recommendations

1.10 Number of pages

The length of research (including tables, figures and other illustrations in the text) not be less than 40 pages (maximum 12.000 words) and up to 60 pages (maximum 30.000 word)

- (Note: These limits do not include appendices.)

1.11 Binding

The Project must be bounded properly with hard cover after final approval. The cover color for the project is “Brown”

1.12 Project Front Cover and Spine

The front cover should be written as the thesis title page. The student's name, degree and the year of the Project submission should be written on the spine.

2. FORMAT AND APPEARANCE

2.1 Title page

This page should include the name of National University Sudan, Faculty of Administrative Sciences, full title of the Project in English and Arabic languages, the degree title, list of full names of the students and the supervisor, and the date of Project submission (month and year) in the same order. All information should be centralized.

2.2 Statement of the degree to be awarded

This statement should be written on the Title Page. It should state the purpose and the award for which the research is submitted.

Example:

A Project submitted as partial fulfilment of the requirements for the award of the bachelor degree of..... (specialization)

2.3 Examiners' approval letter

The examiners' approval letter is mandatory and should be signed by the supervisor and examiners after the comprehensive evaluation of the research work and presentation. Both internal and external examiner should declare that the Project is satisfactory in terms of scope and quality for the evaluation manners.

2.4 Declaration of the Project

2.4.1 Declaration by the Students

All members of the project's group should sign a declaration form that the research is their own, and that it is not submitted for any other degree.

2.4.2 Declaration by the main Supervisor

The supervisor should sign a declaration form that the research is students own, and that it is not submitted for any other degree.

2.5 Introductory page

The introductory page can include Verse from Holy Quran or Hadith with reference.

2.6 Dedication

The dedication should be brief and concise. It should not contain a chart, a picture, numbers or any other related materials.

2.7 Acknowledgement

The acknowledgements statement should be short. The student may acknowledge the assistance of individuals or/and organizations for providing support, time and resources to accomplish the thesis or dissertation work.

2.8 Abstract

The abstract is one of the main parts of the Project. It should be written in English and Arabic languages, with the English one first

The abstract should be brief, written in one paragraph, printed in one page without numbering or bullets, single line space without reference citation. It should state the main objective of study, problem definition, methodology adopted, the main results and recommendation of the research.

2.9 Table of Contents

It informs the reader about the contents of the project. It is highly recommended to generate the table of contents using MS office advanced features.

2.10 List of Tables

The list of tables also has their significance for readers to check the relevant findings at glance. It should contain the page number and the title of Table. The required font is Times New Roman size 12 with 1.5 line spacing.

2.11 List of Figures

All diagrams, photographs, drawings, graphs, charts and maps presented in the thesis will be included as figures. The list of figures should contain the page number and title of Figure.

2.12 List of Appendices

The list of appendices should be pointed out on this page with their title and page number.

2.13 Quotations in the Text

A quotation must be written within the text between two inverted commas [“ ”] and in italic format [*italic*]. The students must ensure that quotations don't exceed 15 % of the text.

2.14 Tables in the Text

The tables must be using numerals following each chapter. A caption should be written in a single line space and positioned at the top of the table and aligned right. Each table should be positioned after it is being cited for the first time in the text. All tables in the chapter can also be grouped together and positioned at an appropriate location at the end.

Table 2.1: Types of pressure atomizer and their applications

Topic	Address
X	YYYYYYYYYYYYY
X	YYYYYYYYYYYYY
X	YYYYYYYYYYYYY
X	YYYYYYYYYYYYY
X	YYYYYYYYYYYYY

2.15 Figures in the Text

The figures must be using numerals following each chapter. A caption should be written in a single line space and positioned at the bottom of the figure and aligned right. Each figure should be positioned after it is being cited for the first time in the text. All the figures in the chapter can also be grouped together and positioned at an appropriate location at the end. All the figures must be clear and of high quality.

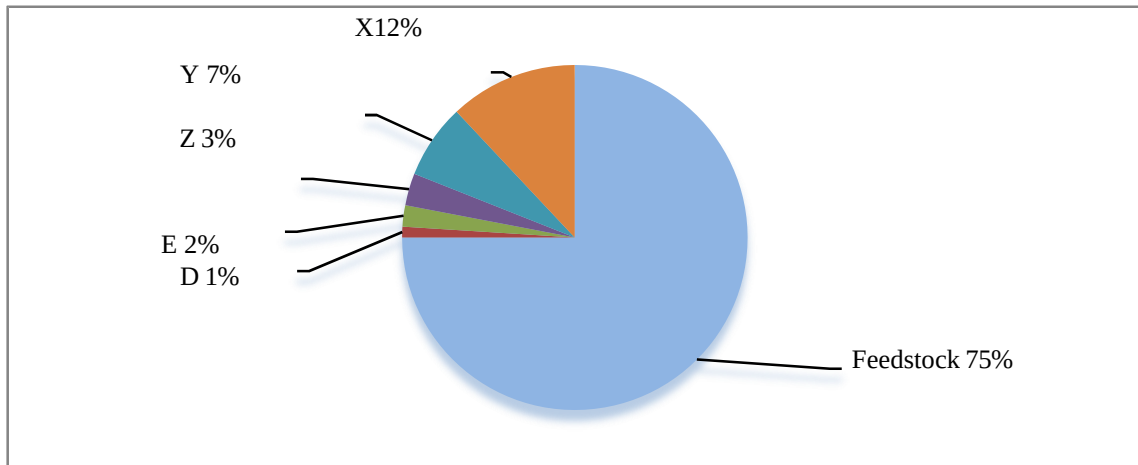

Figure 2.5: General cost breakdown

2.16 References

References are detailed description of items from which information were obtained in preparing the thesis or dissertation. References should be arranged using APA referencing style as will be detailed in the following section.

2.17 Appendices

Appendices are supplementary materials which are lengthy and/or not necessary to be included in the text. These include tables, figures, charts, data used for analysis, example of questionnaires, computer program listings, and others. Appendixes can be named as Appendix A, Appendix B, and so on, depending on types and quantity to be included with specific titles given.

3. REFERENCE STYLE

The details of the published or unpublished references cited in the text should be located in the list of references at the end of the thesis or dissertation using APA style (author-year). The examples below shed more light on this process.

- If the name of an author is not written as part of a sentence, both the name and year of publication should be written in asides.

E.g. “‘Renewable energy resources’ use is playing an important role in the context of wellbeing, efficiency, protection, relaxation and investments that are brought to homeowner the energy efficiency (Ahmed 2022)”’.

Note: If there are two authors for a cited reference, both names should be written. If there are more than three authors for a cited reference, use “et al”. After the name of the first author as follows:

E.g. “‘Perceived Usefulness and Its Impact on Students' Online Learning: A Case of Iran. Khodabandelu, F. S., & Aghaei, S. M. (2022)

E.g. “‘The cultural context significantly affects technology acceptance and suggests that understanding these influences is vital for fostering effective online learning environments in diverse settings (Adnan et al. (2022))’”.

*I would like to dedicate my thesis OR dissertation
To my parents, friends and fellow members
without whom it was almost impossible for me
to complete my thesis work.*

ACKNOWLEDGMENTS

Praise is to ***ALLAH***, the almighty, who graciously favored me to get over this work and enable me to accomplish this achievement.

I would like to thank and acknowledge my supervisor for his vital encouragement and support, may Allah bless him. My thanks are also expressed to my co supervisor for the considerable effort in guiding me through the experimental work.

I would like to convey my sincere thanks and appreciation to my dear *colleagues and friends* for sharing knowledge and experiences. Also, I would like to take this opportunity to thank ***(name of organization or institute, country name)***, who sponsored part of my research work.

ABSTRACT

This study investigated the impact of the racial attitudes of interviewers on the ratings given black and white job applicants. The study was particularly concerned with the situation in which high-prejudiced interviewers operate under organizational policies prohibiting racial discrimination. The theoretical framework used to specify the research problem was organizational role-taking.

A review of the empirical literature indicated the likelihood of an interaction between applicant race and applicant quality. In order to control for applicant quality and applicant race simultaneously, videotapes of simulated job interviews were produced. Applicant quality was controlled by producing a high quality applicant script and a low quality applicant script. A black male and a white male, role-playing applicants, produced two interviews each. Each applicant role-played the high quality applicant and the low quality applicant. This procedure standardized applicant performance across races, producing black and white applicants with equal qualifications and equal interview performance.

The impact of four independent variables on the ratings of applicants was investigated using a posttest-only control group design. The four independent variables were applicant quality, applicant race, interviewers' racial attitudes, and organizational policies nondiscrimination. Subjects were 176 white business administration students at the University of North Carolina--Greensboro.

The main effect for quality was significant, accounting for 50 percent of the variance in ratings given applicants on the Evaluative factor. The main effect for race was significant but not in the predicted direction. Black applicants were rated significantly higher than white applicants. The interaction of race and interviewers' racial attitudes was significant but not in the predicted direction. High-prejudice interviewers rated black applicants higher than white applicants. The interaction of race and quality of the applicant was partially supported. Low quality black applicants were rated higher than low quality white applicants, while there was not a significant difference in the ratings of high quality black and white applicants. The hypotheses predicting a main effect for racial attitudes and a three-way interaction for applicant race, racial attitudes, and organizational policies concerning nondiscrimination were not supported. The hypothesis predicting that subjects would have more confidence in their ratings of low quality applicants was not supported.

المستخلص

"لقد بحثت هذه الدراسة في تأثير المواقف العنصرية للمقابلين على التقييمات الممنوحة لمقدمي طلبات العمل من ذوي البشرة السوداء وذوي البشرة البيضاء. وقد ركزت الدراسة بشكل خاص على الحالة التي يعمل فيها المقابلون ذوو التحيز العالي ضمن سياسات تنظيمية تحظر التمييز العنصري. وقد تم استخدام الإطار النظري القائم على مفهوم "تقصص الدور التنظيمي" لتحديد مشكلة البحث. أشارت مراجعة الأدبيات التجريبية إلى احتمال وجود تفاعل بين عرق المتقدم وجودة المتقدم. وللسيطرة على جودة المتقدم وعرقه في الوقت نفسه، تم إنتاج أشرطة فيديو لمقابلات عمل محاكاة. تم التحكم في جودة المتقدم من خلال إعداد نص لمقدم عالي الجودة ونص لمقدم منخفض الجودة. قام رجل أسود ورجل أبيض، بدور المتقدمين، بأداء مقابلتين لكل منهما. حيث لعب كل مقدم دور المتقدم عالي الجودة والمتقدم منخفض الجودة. وقد أدى هذا الإجراء إلى توحيد أداء المتقدمين عبر الأعراق، مما أنتج متقدمين سود وببيض بمؤهلات وأداء مقابلة متساويين. تمت دراسة أثر أربعة متغيرات مستقلة على تقييمات المتقدمين باستخدام تصميم مجموعة ضابطة باختبار بعدي فقط. وكانت المتغيرات المستقلة الأربعة هي: جودة المتقدم، عرق المتقدم، المواقف العنصرية للمقابلين، والسياسات التنظيمية لعدم التمييز. بلغ عدد المشاركين 176 طالباً أبيض في إدارة الأعمال بجامعة نورث كارولاينا - غرينسبورو. أظهرت النتائج أن الأثر الرئيسي للجودة كان دالاً إحصائياً، حيث فسر 50% من التباين في التقييمات الممنوحة للمتقدمين على عامل التقييم. كما كان للأثر الرئيسي للعرق دلالة إحصائية ولكن ليس في الاتجاه المتوقع، إذ تم تقييم المتقدمين السود بدرجات أعلى بشكل ملحوظ من المتقدمين البيض. كذلك، كان التفاعل بين العرق والمواقف العنصرية للمقابلين دالاً إحصائياً، ولكن ليس في الاتجاه المتوقع، حيث قِيمَ المقابلون ذوو التحيز العالي المتقدمين السود بدرجات أعلى من المتقدمين البيض. وقد تم دعم التفاعل بين العرق وجودة المتقدم جزئياً، إذ تم تقييم المتقدمين السود منخفضي الجودة بدرجات أعلى من المتقدمين البيض منخفضي الجودة، بينما لم يكن هناك فرق معنوي بين تقييمات المتقدمين السود والبيض ذوي الجودة العالية.
